FINANCIAL MINUTES. The Acting Colonial Secretary submitted the following minute: - The Officer Administoring the Government recommends the Council to vote a sum of \$107,186,74, for ropairs to damages caused by the Rainstorm of 29th and 30th May, 1889.

I think it is only fair to mention to the Council; that this sum does not include the repairs to the bridge on Kennedy Road or to the Albany Nullah which are still uncompleted. Nor does it include the repairs to the bridle path on the South West part of the road leading to Stauley and Capo D'Aguilar. 'I think the cost of these repairs will be about 23,000, and therefore in all probability the amount actually expended for repairs will be within the estimates. The following financial minute was also

FRAUDULENT MARKS BILL. The Acting Attorney General-I have to move the second reading of a Bill entitled an Ordinance to amend the law relating to fraudulent marks on merchandisc. To the remarks made by the Attorney General when introducing this Bill, I beg to add that it is framed on the Imperial Act. It was introduced on a very pressing representation made to the Board of Trade by the London Chamber of Commerce and other Chambers of Commerce. British interests, British manufactures and even Britsh shipping by the use of fraudulent trade marks; and after a great deal of discussion the English Act was passed, which has now been in operation for nearly three years. Further representations were made to the Board of Trade, stating that iron, the experience gained had been such as to encourage the London Chamber of Commerce to urge on the Colonial Secretary that the Bill should be passed in all the

British Colonies and in India. A great many Colonies have already adopted similar acts, and Hongkong is one of the very fow that have not yet done so. This Bill has been framed on the English Acts and contains nearly overything in our former ordinance, with of course additions to the clauses relating to the import of goods. These were the important clauses which wore inserted in the English Act. They provide for the punishment of the illegal has of trade marks. One of the main objects of the Euglish Act was the probiniting the importation of goods bearing the trade. marks (fraudulently imitated) of manufacturers in the United Kingdom, and the principal clauses of the Bill provide for

Mr. MacEwen-I may say on behalf of the Chamber of Commerce that this bill was very carefully considered by them some months ago, and there is no objection to the passing of the bill, in fact they rather approve of it. There is only one poin which I think is not clearly stated in the bill, and that is with reference to goods manufactured in a foreign country, and regard to this matter I should like to ask if it will be absolutely necessary that it should be stated on these goods that they are manufactured in a foreign country. For instance, in this colony there are large importations of goods known as medium cloth and broad cloth, and ou these it is distinctly stated in Boglish that these are Superfine cloth; will it he necessary that it should also be stated in German that the goods are made in Germany? A case which was brought to my notice to-day is that of Swedish bor iron, which is imported in large quantities into China with the word Lancashire stamped upon it; would that come in any way under this ordinance ! It is a matter about which there seems to be some doubt, and it is highly desirable that it should be clearly financial minutes, and he would au gest understood.

A free trade route between police, the Victoria Nyanza and Lake Tanganyika has, however, been reserved to England, and for this concession Germany will, it possible, be compensated elsewhere.

London. June 17 .- The sgreement arrived at between England and Germany in regard to the respective spheres of in-Auence in Central and South-Eastern Africa

has now been signed. The foreeast published by the Times proves to be substantially correct: Germany is recognised as dominating an extension to the borders of the Congo Free State, her frontier extending from Lake has been removed, and those men who had Tanganyika to the first parallel of outh

latitude. Zanzibar cedes the sovereign rights over the coust to England and Germany. June 18 .- In addition to the other concessions notified. Germany is to receive right of free transit through Nyassa and Congo. She surrenders the coast line from Vitu to Juba, thus leaving England with. out a competitor, except Italy, from the former station to the borders of Egypt.

The English and German Press generally applied the settlement of the African ques-The Emperor William approves of the

terms of the settlement. London, June 19 .- The discussion of the settlement arrived at between Great Britain and Germany relative to their resp. ctive spheres of influence in Africa continues. Mr H. M. Stanley has been interviewed

on the matter and he states that, in his opinion. Lord Salisbary has added half a million square miles to the mpire, with the possibility of immense future extenbir W. Mackinson. Chairman of the Emin Pasha Re iof Committee, under

whose auspices Mr Stanley went to Africa on his last expedition, is also warmly in favour of the agreement arrived at between Great Britain and Germany. The announcement that Mr H. M. Stanley will be appointed by the King of the

Belgians to the Governorship of the Congo Free State is premature. June 20 .- The Germans consider that the aettlement of the African question almost amounts to an alliance between Eng. land and Germany.

London, June 26th. - The match of the Australians with the Players of England has resulted in a very decisive defeat-for the visitors. The Englishmen scored 526 in their first innings, to which the Australians responded with scores of 156 and 107 in their two innings, their opponents thus necuring a win with an innings and 253 runs to spare. Gunn (Englishman) made a wonderful stand, his individual score amounting to 228.

In the match with the players of Yorkshire the scores stand-Australians, firstinnings, 177. Yorkshire, first innings, 171. Australians, second innings, five out for 20. THE CHAMPION BOAT BACE.

Adelaide, June 24th .- The sculling match between William O'Connor, of Canada, and James Stansbury, of New South Walen, was rowed on the Parramatta course yesterday. It was for £5 0 a side and the championship of the world.

There was a crowded attendance of spectators, on the various river steamers as well as lining the shore, and occupying all places of vantage. But the race itself was a very tame affair.

O'Connor won the toss, and took the southern shore. They both got away well the Canadian being the first to settle down, and he obtained a lead of a quarter of a length before the Australian had got way on. The latter, however, soon palled himself together, and with a few powerful efforts shortly pulled up level and contpletely collared his opponent. Both were rowing in good form. At Uhr's Point Stansbury was leading slightly, with O Connor bugging the southern shore, and his opponent also keeping very close in. O'Connor here made an effort to get further out, and in another moment he had Stansbury's host right across him, the stem of the Australian's shell barely escaping contact. Cries of foul were raised by the spectators, but O'Connor rowed on without appealing, and in a short distance Stansbury had a lead of three lengths, and was paddling leisurely. This advantage was

increased towards the end, the Australian ultimately winning by 6 lengths. The time for the race was 20m. 28ts. The umpire considered there was nothing in the supposed foul to alter the result of the match, and awarded the race to Stans.
